

ZOTAC E2-1800-ITX series Motherboard

Addendum (291-9A277-0000F)

Thank you for choosing our E2-1800-ITX series motherboard. Please note:

1. The bundled DVI-to-VGA adapter is fully compatible under legacy OS only.
2. The option of “AMI Graphic Output Protocol Policy” mentioned at manual page 26 which is not available for this project.
